

EW60E

Volvo Compact Wheeled Excavator

Main Features and Benefits

- Standard offset boom allows the operator to adjust to applications that require working in confined areas.
- Four-wheel drive and a top speed of 18.6 mph guarantee excellent mobility and speed on and off road.
- Features the latest generation Volvo cab with 10% more space than prior models.
- Ground-level service access and convenient greasing points reduce service time and maintenance costs.
- The standard auto idle and engine shutdown feature - a unique offering from Volvo - shuts off the engine automatically after a preselected idle time, helping to dramatically lower fuel costs and lower total machine hours for increased resale value.
- Volvo CareTrack® telematics and Volvo MATRIS (Machine Tracking Information System) software.
